

February 21st, 1998

Federal Communications Commission
Office of the Secretary, Room 222
1919 M Street, NW
Washington DC, 20554

Dear Sirs:

I would like to comment on the Petition for Rule Making now before you amending the AM and FM service rules for microradio broadcasting.

I want to state that I am in favor of this petition as it now stands, plus I request that you also consider the following:

Please allow microbroadcast stations to use **any unused channel** as long as it is proven that no interference to other services will result.

In conclusion, I fully support this move to amend the rules and applaud your forward thinking in this matter.

Sincerely,

Las Fonzalif
